# Stage 2 Water Restrictions Mandatory

## Reduction and Actions Available Under Stage 2

- Limit landscape watering at each service address to once every five days based on the last digit of the address. (Exceptions: Foundations, new plantings (first year) of trees and shrubs may be watered for up to two hours on any day by a hand-held hose or a soaker hose. Restrictions do not apply to locations using treated wastewater effluent for irrigation). **A mandatory lawn-watering schedule shall be imposed. The following schedule shall be implemented; however, an alternate schedule may be used if it is found to be more effective:**  
**Customers with street addresses ending in an even number (0, 2, 4, 6, 8,): Sundays and Thursday**  
**Customers with street addresses ending in an odd number (1, 3, 5, 7, 9): Saturdays and Tuesdays**  
**Irrigation of landscaped areas is limited to the hours of 12:00 midnight until 10:00 a.m. and between 8:00 p.m. and 12:00 midnight on designated watering days. However, irrigation of landscaped areas is permitted at anytime if it is by means of hand-held hose, a faucet filled bucket or watering can of five (5) gallons or less, or drip irrigation system.**
- Use of water to wash any motor vehicle, motorbike, boat, trailer, airplane or other vehicle is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight. Such washing, when allowed, shall be done with a hand-held bucket or a hand-held hose equipped with a positive shutoff nozzle for quick rinses. Vehicle washing may be done at anytime on the immediate premises of a commercial car wash or commercial service station. Further, such washing may be exempted from these regulations if the health, safety, and welfare of the public is contingent upon frequent vehicle cleansing, such as garbage trucks and vehicles used to transport food and perishables.
- Use of water to fill, refill, or add to any indoor or outdoor swimming pools, wading pools, or jacuzzi-type pools is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight.
- Use of water from hydrants shall be limited to firefighting, related activities, or other activities necessary to maintain public health, safety, and welfare, except that use of water from designated fire hydrants for construction purposes may be allowed under special permit from the Bolivar WSC.
- Use of water for irrigation of golf course greens, tees, and fairways is prohibited except on designated watering days between the hours of 12:00 midnight and 10:00 a.m. and between 8:00 p.m. and 12:00 midnight. However, if the golf course utilizes a water resource other than provided by Bolivar Water Supply Corporation, the facility shall not be subject to these regulations.
- Encourage the public to wait until the current drought or emergency situation has passed before establishing new landscaping
- Notify wholesale customers (if any) of actions being taken in Bolivar Water Supply Corporation and request them to implement similar procedures

## Procedure for Enforcement of Mandatory Restrictions

- On the first violation, customers will be given a written warning that they have violated the mandatory water use restriction.
- On the second and subsequent violations, citations may be issued to customers, with fines not less than \$100.00 and not to exceed \$2,000.00 per incident.
- After two violations have occurred, the Bolivar WSC may install a flow restrictor in the line to limit the amount of water that may pass through the meter in a 24-hour period.  
After three violations have occurred, the Bolivar WSC may cut off water service to the customer
